

Annual Recognition & Awards 2006 Committee Report

The Awards Committee submitted the previous SLML Leadership and Outstanding Service Award winners for posting on the SLML website (<http://www.slml.org/org/awards.html>).

An email was sent to the membership listserv requesting nominees for the Outstanding Service Award and Leadership Awards for 2006. It also requested that members who had not previously received an award recognizing their years of membership in SLML submit their names.

The Annual Awards Luncheon was held on April 14, 2006, at Washington University, Bernard Becker Medical Library, King Center. The Leadership Award was presented to Russ Monika, and the Outstanding Service Award to Kim Lipsey, both at Washington University, Bernard Becker Medical Library. Both awardees have previously served the Organization as officers. Eight certificates were given to members recognizing years of membership: one member, 30 years; three members, 20 years; and four members, 5 years. Certificates were also given to committee members and officers of the Organization thanking them for their service. Pictures were taken of the event by Russ Monika and can be viewed at the SLML web site <http://www.slml.org/events/awards06> .

The members of the Awards Committee would like to recommend that the Bylaws be changed to accept nominations for the various awards via email.

They would also like to thank the membership for their assistance by contributing to the recognition of these highly deserving individuals.
